Personal Touch Catering
Owner: Deborah Krill

Every year St. Katharine Drexel Catholic Church celebrates their patron Saint's Feast Day with a big party for the entire parish community. This year was our 25th year anniversary as a parish and we wanted to do something special.

Personal Touch Catering was one of the caterers recommended to us. It was the best decision we ever made. We met with Deborah and told her our theme for the dinner dance. Between us, we came up with a basic menu and then a few weeks before our event we met again to go over the final menu. We planned to provide our own paper products but she was instrumental in helping us find the best quality plates, utensils and glasses for the best price. Her knowledge of the various stores in our area and what products they carry is impressive. She was so much more than "just" a caterer for us. She became a part of our team.

The day of the event, Deborah and her team came to the venue to set up. They were efficient, upbeat and their attitudes were infectious making us get more excited for our dinner dance that evening. They made suggestions to change how we traditionally organized the food line. Their suggestions were much better than our original plan.

The servers were pleasant, professional and efficient. My husband and I were able to sit and enjoy the delicious meal for the first time in several years because we didn't have to help in any way. Deborah and her team took care of every detail. Some comments we heard were how moist the turkey was and not dry at all, the subtle flavor of the ham, and her amazing sweet potato casserole. Her sweet potato casserole was the hands down favorite of the evening. A lady at our table insisted on meeting Deborah and when she was told Personal Touch was going to cater another of our functions, said she would attend just to have her food again.

We were very pleased with Personal Touch Catering: they are pleasant, efficient, professional, knowledgeable and creative. Their pricing is competitive as well and worth every penny spent.

Sincerely,

Lois Duncanson-Glenn
